Bussing & Transportation

Do you think public transportation should be free? How do you think we could make that happen?

How could your city better their public transportation system?

How could public transportation become more accessible for individuals with disabilities?

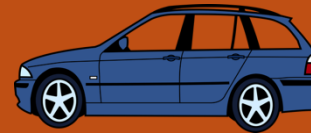

Do you think there is any stigma surrounding the use of public transport? Do you agree or disagree? Why?

How could public transportation become more energy efficient?

If you did not have to take public transportation again, would you? Why?

If you could add one public transit line in your city, where would it go? Where would it start and end? What are its hours? And at what frequency does it come?

What do you think one's choice of transportation says about their lifestyle? About their values?
