Shopping

What do you think where one shops and what they buy says about them as a person?

How does shopping change across different cultures? Across different ages? Between genders?

How have your shopping habits changed as you have gotten older?

What are the advantages of shopping online vs. in person? Are there any disadvantages?

If you were to open a shop, what would it be called? What would you sell? How much would everything cost? Where would it be?

What stereotypes exist around shopping? Do you agree? Why or why not?

How is shopping different in your current city than where you are from?

If you could buy anything, no matter the price, what would you buy? Why?
