

Two people at
your job are
arguing. What
do you do? Do
you tell
someone?

Your boss asks
you to work
late, but you
already have
plans after
work. Do you
say yes or no?
Why?

Imagine you
work at a
restaurant: A
customer gets
the wrong food.
They are very
angry. What do
you say? What
do you do?

You get an offer
for a better job
but it is in a
different state.
Do you accept the
new job, or stay
where you are?
Why?

You feel tired
and busy every
day. What do
you do to relax
after work?

You share an
idea in a
meeting, but no
one listens. How
do you feel?
What do you do?

Would you
rather work
alone or with a
team? Why

What is your
dream job?
Why?
