Bussing & Transportation

Finding a Way Home

Leon has recently moved into Iowa City. To make money for himself Leon is going to work at a restaurant in downtown Iowa City. He wants to use the city bus to go to work in the morning and to go home after his shift. Everyday he ends his shift at 4:00 p.m. After his first day Leon needs to find out which bus he will need to take to go back home. He asks himself "Which bus is going to bring me close to my apartment?" To find out Leon pulls out his phone and opens the Navigation app. He searches for his address. The app shows that he needs to use Bus #8 to go home and he has to get off on the stop on 22nd Avenue. It also shows that the bus will come in 15 minutes at 4:20 p.m.

Leon is feeling a bit little hungry after his shift and wants to get something to eat. However, he is worried that he will miss his bus if he goes too far. He decides to get a snack from the Old Capitol Mall because it is next to his bus stop. He gets a cookie and a drink from a store inside the mall. After he finishes eating he checks the time. It is now 4:15 p.m. Leon goes outside to wait for the bus and the bus arrives early at 4:18. Leon gets on the bus and he remembers to get off at his stop. Once he gets off the bus he takes a short walk back to his home and gets ready for dinner.

True or False

Read the following statements and circle T if you think it is true and F if you think it is false.

- | | | |
|--|---|---|
| 1. Leon has been living in Iowa city for many years | T | F |
